

NeoRent Rental Platform

Official User Manual & Complete Operations Guide

This official user manual provides an exhaustive, step-by-step operational guide for the **NeoRent Equipment & Asset Rental Platform** developed for the **Odoo Hackathon 2026 ASPD Project**. It covers all system roles—including Customers, Vendors, and Administrators—guiding users through storefront navigation, dynamic variant configuration, automated checkout, order timeline tracking, hands-free voice controls, AI assistance, vendor catalog management, financial invoicing, dynamic pricelists, and IoT smart lock telemetry.

Document Type:	Official User Manual & Operational Standard Operating Procedure (SOP)
Target Audience:	End-User Customers, Equipment Vendors, Platform Administrators
Platform URL:	http://localhost:5173 (Vite Dev) / http://localhost:8000 (FastAPI)
Supported Browsers:	Google Chrome, Microsoft Edge, Mozilla Firefox, Apple Safari
Release Version:	v1.0.0 Final Hardened Build

USER MANUAL PURPOSE: *This guide ensures seamless onboarding for customers renting high-value equipment and vendors managing rental fleets, providing precise instructions for every button, modal, toggle, and administrative workflow.*

Chapter 1: System Overview & User Role Matrix

NeoRent enforces Role-Based Access Control (RBAC) to tailor the application interface based on user authorization levels. Below is the permissions and feature matrix across the three supported roles:

System Feature / Area	Customer Role	Vendor Role	Admin Role
Storefront & Search	Full Access	Full Access	Full Access
Variant Configurator	Full Access	Full Access	Full Access
Cart & Stripe Checkout	Full Access	Full Access	Full Access
Voice & AI Chat	Full Access	Full Access	Full Access
Rental Timeline Tracking	Own Orders	All Orders	All Orders
Product Catalog Management	Read Only	Create / Edit Own	Full Admin Control
Quotation & Order Lifecycle	Accept / Pay	Manage & Confirm	Full Admin Control
Financial Invoicing & Pricelists	View PDF Invoice	Post & Edit Invoices	Full Admin Control
IoT Smart Lock Telemetry	No Access	View Own Assets	Full Remote Control
Audit Logs & Security Trail	No Access	No Access	Full Admin Control

Chapter 2: Customer User Guide

2.1 Browsing & Searching the Storefront

- Hero Banner:** Experience the ambient video hero section. Click *'Explore Rentals'* to jump directly to equipment listings.
- Live Search Bar:** Located in the top Navigation Bar (``Navbar.jsx``). Type keywords like *'DSLR'*, *'Monitor'*, or *'Camera'* to filter instantly.
- Category Selection:** Toggle between **Goods** (physical equipment) and **Services** (technical operators, setup staff).
- Multi-Currency Switcher:** Click the currency dropdown in the navbar to switch between **USD (\$)**, **EUR (€)**, **GBP (£)**, and **INR (₹)**. All prices convert dynamically.

2.2 Configuring Rental Equipment (ProductConfigModal.jsx)

- Launch Modal:** Click the *'Configure Rental'* button on any product card.
- Select Attribute Variants:** Choose desired specs (e.g. Lens Body: 24-70mm f/2.8, RAM: 32GB, Color: Space Gray). Extra pricing modifiers update live.
- Select Periodicity & Rental Dates:** Select billing periodicity (**Hourly**, **Daily**, **Weekly**, **Nightly**). Pick rental start and end date-times.
- Review Risk Oracle Score & Security Deposit:** Check the calculated total price breakdown: $Total = (Rate \times Multiplier) + Variant\ Modifiers + Security\ Deposit$. Review the Risk Oracle safety badge.

2.3 Cart Management & Checkout (CartView.jsx & CheckoutView.jsx)

- Shopping Cart:** Click the Cart Icon in the navbar to open the cart drawer. Verify items, adjust quantities, or enter promo discount codes.

- 2. Hold Reservation Timer:** High-demand items display a live countdown hold timer. Complete checkout before the hold expires to reserve stock.
- 3. Checkout Address & Logistics:** Enter Billing and Shipping addresses. Select shipping method (Standard Shipping, Express Courier, or Self Pickup).
- 4. Payment Confirmation:** Input payment card details in the Stripe test payment form and click '*Confirm & Pay*'. Enjoy the celebratory canvas confetti explosion!

2.4 Post-Purchase Order Tracking & Support

- 1. Rental Journey Timeline:** View your order progress on ``RentalJourneyTimeline.jsx`` tracking milestones: Quotation Created → Sale Order Confirmed → Dispatched → Active Rental → Returned.
- 2. NeoBot AI Assistant:** Click the floating AI Chat icon (``NeoBotChat.jsx``) to ask questions regarding rental extensions, deposit refunds, or return instructions.
- 3. Hands-Free Voice Commands:** Click the Microphone button (``VoiceCommandPanel.jsx``) and speak naturally (e.g., '*Search Ergonomic Chair*', '*Switch to Euros*').

Chapter 3: Vendor & Administrator Operations Guide

3.1 Admin Authentication & Security Verification

To access administrative features, click **Sign In** in the navbar and select the **Admin** tab in ``AuthFlow.jsx``. Administrator registration requires an authorized email address (e.g., `neorent435@gmail.com`). Unverified domain sign-ups are automatically blocked.

3.2 Vendor Admin Dashboard Hubs (AdminDashboard.jsx)

The Admin Dashboard consists of 8 dedicated management tabs:

- **1. Products Catalog Tab:** Create, edit, or publish rental items. Define stock quantities, sales prices, cost prices, security deposits, and default periodicities.
- **2. Orders Management Tab:** View all customer rental orders. Transition orders across logistics states ('TODAY', 'PICKUP', 'RETURN', 'LATE') and confirm sale orders.
- **3. Quotation Templates Tab:** Create reusable quotation templates with custom validity periods (e.g. 30 days) and payment terms percentages (e.g. 100% upfront).
- **4. Invoices Management Tab:** Generate draft invoices from confirmed rental orders, post invoices, record payment receipts, and download printable PDF invoices.
- **5. Pricelists Engine Tab:** Configure dynamic promotional discount rules, quantity break discounts (e.g. 15% off for 5+ units), or fixed price overrides.
- **6. Variant Attributes Tab:** Manage global product attributes (Radio buttons, Pills, Checkboxes, Image selectors) and set extra price modifiers per attribute value.
- **7. IoT Smart Lock Telemetry Tab:** Monitor live GPS map coordinates, battery levels, lock/unlock states, and anti-tamper security alerts for high-value rental equipment.
- **8. Audit Logs Tab:** Inspect immutable, time-stamped security audit trail logs recording user logins, order status transitions, catalog edits, and admin actions.

Chapter 4: Troubleshooting, FAQ & Voice Commands

Symptom / Issue	Probable Cause	Recommended Resolution
Voice Recognition Not Working	Browser microphone permissions blocked or unsupported browser.	Ensure you are using Google Chrome/Edge and click 'Allow Microphone' when prompted by the browser.
Admin Sign-Up Access Denied	Attempting to register admin role with unauthorized email domain.	Admin registration is restricted to verified email credentials (<code>neorent435@gmail.com</code>). Contact platform administrator.
Video Hero Player Is Black	Mobile browser autoplay policy blocked video stream playback.	The component automatically displays a high-definition poster image fallback. Ensure 'Low Power Mode' is disabled on iOS.
Currency Conversion Not Updating	Local storage cache out of sync with API currency coefficients.	Refresh the browser page or re-select the currency from the navbar dropdown to trigger context re-render.
Order Stuck in Quotation State	Order awaiting vendor confirmation or customer payment.	Log in as Vendor/Admin in AdminDashboard.jsx, navigate to Orders tab, and click 'Confirm Sale Order'.

Voice Commands Cheatsheet

- **'Search [Product Keyword]'**: Automatically filters storefront catalog (e.g., *'Search Camera'*).
- **'Go to Admin'**: Opens the Admin Dashboard console.
- **'Filter Goods' / 'Filter Services'**: Toggles product category filter.
- **'Switch to USD' / 'Switch to EUR'**: Changes active application currency.
- **'Show Cart'**: Opens the shopping cart drawer.
